**ROAD TRANSPORT YEAR BOOK
(2007 - 2009)
(Volume- I)**

**TRANSPORT RESEARCH WING,
MINISTRY OF ROAD TRANSPORT & HIGHWAYS
GOVERNMENT OF INDIA
NEW DELHI**

MARCH 2011

PREFACE

The Transport Research Wing (TRW) of the Ministry of Road Transport & Highways has traditionally been providing inputs by way of data, research and analysis pertaining to Roads, Road Transport and Road Accidents in India to the different Divisions of the Ministry of Road Transport & Highways.

In respect of Road Transport Sector, the TRW used to bring out "*Motor Transport Statistics*", which was a compilation of motor transport data. The last issue of this publication was brought out in 2005. It was felt that there was need for a more comprehensive and analytical publication relating to Road Transport Sector, in view its importance in economic and social development of the country. It is with this objective in view that a new publication titled "**Road Transport Year Book**" was launched in 2005. The present issue "*Road Transport Year Book 2007-09*" is the fourth issue in the series. The present issue focuses on the registered motor vehicle population and motor vehicle taxation structure in various States / UTs in the country.

The Transport Research Wing gratefully acknowledges the guidance and encouragement from Shri R. S. Gujral, Secreter, Ministry of Road Transport & Highways as well as the erstwhile Secretary Shri. Brahm Dutt, in bringing out this publication. Constructive suggestions from the users of the publication would help in improving its quality and coverage.

(Arvind Kumar)

Advisor (Transport Research)

Ministry of Road Transport & Highways,

Government of India

March, 2011

CONTENTS

Table No.	Subject	Page No.
	Overview of the Road Transport Sector	i-xiii
	SECTION – I	
	ROAD TRANSPORT SECTOR AT A GLANCE	
1.1	Total Number of Registered Motor Vehicles in India (1951-2009)	1
1.2	Total Number of Registered Motor Vehicles in India (State-wise) (2001-2009)	2
1.3	Total Registered Motor Vehicles in Metropolitan Cities of India (2001-2009)	3
1.4	Number of Buses Owned by the Public and Private Sectors in India (1961-2009)	4
1.5	Total Bus Fleet and Buses in Public Sector (SRTUs) (State-wise) – As on 31 st March (2007, 2008 & 2009)	5
1.6	Production of Motor Vehicles in India (2003-04 to 2009-10)	6
1.7	Sales of Motor Vehicles in India (including Exports) – (2003-04 to 2009-10)	7
1.8	Revenue Realised from Road Transport (Centre) (1950-51 to 2009-10)	8
1.9	Revenue Realised from Road Transport (States) (1950-51 to 2009-10)	9
1.10	Select Countries: Vehicle Fleet Ratios per 1000 Persons	10
1.11	Select Countries: Two Wheelers per 1000 Persons	11
	SECTION – II	
	PROFILE OF MOTOR VEHICLES REGISTRATION (STATE/UTs)	
2.1	Total Registered Motor Vehicles (Category-wise) in India by States/UTs (As on 31 st March, 2007)	12-13
2.2	Total Registered Motor Vehicles (Category-wise) in India by States/UTs (As on 31 st March, 2008)	14-15

.2.3	Total Registered Motor Vehicles (Category-wise) in India by States/UTs (As on 31 st March, 2009)	16-17
2.4.1 - 2.4.35	State/UT-wise Number of Registered Motor Vehicles (Transport & Non-Transport) in India – 2006-07, 2007-08 & 2008-09	18-52

SECTION – III

PROFILE OF MOTOR VEHICLES REGISTRATION (CITIES)

3.1	Total Registered Motor Vehicles (Category-wise) in Metropolitan Cities of India (As on 31 st March, 2007)	53-54
3.2	Total Registered Motor Vehicles (Category-wise) in Metropolitan Cities of India (As on 31 st March, 2008)	55-56
3.3	Total Registered Motor Vehicles (Category-wise) in Metropolitan Cities of India (As on 31 st March, 2009)	57-58
3.4	Total Registered Motor Vehicles(in Metropolitan Cities) of India (As on 31 st March, 2007, 2008 & 2009)	59-70

SECTION – IV

MOTOR VEHICLE TAXATION

4.1	State-wise Rates of Motor Vehicle Taxes on Personalised Vehicles, Taxis and Auto-rickshaws	71-86
4.2	State-wise Rates of Motor Vehicle Taxes on Goods Transport	87-107
4.3	State-wise Rates of Motor Vehicle Taxes on Passenger Transport	108-123

ANNEXURE

ANNEX I - Glossary of Important Road Transport Terms	i-v
ANNEX II -Trend in Registered Motor Vehicle Population & Non Motorised Transport in Delhi	vi
ANNEX III - National Permit Authorization Fees and Composite Fees by States/UTs	vii

Overview of Road Transport Sector

Road transport is vital to the economic development and social integration of the country. Road transport encompasses a wide range of services and industries from road freight/passenger services providers and road/highways/expressways infrastructure. Besides, the sector also uses a wide array of services necessary for the functioning of the road transport sector which cover banking, insurance, repair services etc. Road transport, together with the other modes of transport, is vital for conveyance of goods and people across the country. It facilitates access of people to a wide range of economic and social services necessary for the well being of the population at large. It is a key factor to social, regional and economic cohesion, including the development of rural areas. However, the impact of road transport on the environment and health remains a major challenge. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport an increasingly higher share of both passenger and freight traffic vis-à-vis other transport modes. In addition to these factors, transit time, availability of capacity on alternative modes, quality and reliability of the service, associated costs like warehousing and demurrage etc. all influence the choice of the mode of transport. The alternative modes of transport viz. roadways, railways, waterways, airways, mass transit etc., each contribute to the transportation requirements of the economy. Transport sector accounted for a share of 6.6 per cent in India's Gross Domestic Product (GDP) in 2008-09. Road Transport is the dominant mode of transport with a share of 4.8 percent in GDP. It can be seen that over the years, share of road transport in GDP has increased while that of railways have fallen. The composition of various sub-sectors of the transport sector in the GDP is given in Table 1

Table 1 : Share of Different Modes of Transport in GDP										
	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09
Sector	As percentage of GDP (at factor cost and constant prices)									
Transport of which:	6.0	6.0	6.0	6.2	6.3	6.7	6.7	6.7	6.7	6.6
Railways	1.3	1.3	1.2	1.2	1.2	1.0	1.0	1.0	1.0	1.0
Road Transport	3.8	3.9	3.9	4.1	4.3	4.8	4.8	4.8	4.7	4.8
Water Transport	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2
Air Transport	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2	0.2
Services *	0.5	0.5	0.5	0.5	0.5	0.5	0.5	0.5	0.5	0.4

*Data from 1999-2000 upto 2003-04 are at 1999-2000 price/Data from 2004-05 onwards are at 2004-05 price
FISM = Financial Intermediation Services indirectly Measured/ All modes include FISM*

** Services incidental to transport. Source: Central Statistical Organisation.*

It may be noted that the entire increase in percentage share of transport in GDP since 1999-2000 has come from road transport sector only, with share of other modes remaining either constant or falling marginally.

Registered Motor Vehicles in India

India had about 115 million registered motor vehicles at the end of fiscal year 2008-09. Personalized mode (constituting mainly two wheelers and passenger cars) accounted for more than four-fifth of the motor vehicle population in the country compared to their share of little over three-fifth in 1951 (Table-2). Further break up of motor vehicle population reflects preponderance of two-wheelers with a share of about 72 per cent in India's total vehicle population, followed by passenger cars (including jeeps & taxis) at 13.3 per cent and other vehicles (a heterogeneous category which includes 3 wheelers (Light Motor Vehicle (LMV) - Passengers), trailers, tractors, etc. at 8.4 per cent. In contrast to personalized mode, the share of buses in total registered vehicles has declined from 11.1% in 1951 to a mere 1.3% in 2009. Also, the share of goods vehicles at 5.3 % has shrunk since 1951. The erosion of share of buses in the vehicle population to about 1.3% also reflects slow growth in public passenger bus transport services.

Table 2 – India: Composition of Vehicle Population (% of total)						
Year end	Two Wheelers	Cars, Jeeps & Taxis etc.	Buses	Goods Vehicle	Others Vehicles	Total
March	(as % age of total vehicle population)					(Million)
1951	8.8	52	11.1	26.8	1.3	0.31
1961	13.2	46.6	8.6	25.3	6.3	0.66
1971	30.9	36.6	5.0	18.4	9.1	1.86
1981	48.6	21.5	3.0	10.3	16.6	5.39
1991	66.4	13.8	1.5	6.3	11.9	21.37
2001	70.1	12.8	1.2	5.4	10.5	54.99
2002	70.6	12.9	1.1	5.0	10.4	58.92
2003	70.9	12.8	1.1	5.2	10.0	67.01
2004	71.4	13.0	1.1	5.2	9.4	72.72
2005	72.1	12.7	1.1	4.9	9.1	81.5
2006	72.2	12.9	1.1	4.9	8.8	89.61
2007	71.5	13.1	1.4	5.3	8.7	96.69
2008	71.5	13.2	1.4	5.3	8.6	105.33
2009 (p)	71.7	13.3	1.3	5.3	8.4	115.0

Note: Others include Tractors, Trailers, 3 Wheelers (passenger) & etc. (P): Provisional

Source: Calculated on the basis of data received from Offices of State Transport Commissioners/UT Admns.

Chart-1 indicates that the share of 2- Wheeler population measured as a percentage of total vehicles show a steep rise between 1951 and 1991 but thereafter increased very slowly. The percentage share of the rest of the vehicle categories declined sharply from 1951 to 2001 and thereafter their shares remained nearly stagnant. With a rising income and greater need for mobility the personalized mode of transport is likely to grow in importance in the coming years. However, proliferation in the personalized mode of transport has serious implications for traffic congestion, energy efficiency and pollution.

Source: Calculated on the basis of data received from Offices of State Transport Commissioners/UT Admns.

Source: Calculated on the basis of data received from Offices of State Transport Commissioners/UT Admns.

The total registered vehicles in the country grew at a Compound Annual Growth Rate (CAGR) of 9.8% between 1991 and 2009. Personalized category of motor vehicles, viz. (i) two wheelers and (ii) cars etc. grew at CAGR 10.3% and 9.6% respectively which was higher compared to growth in buses (8.7% per annum) and goods vehicles (8.7%) as shown in Table 3. The higher growth in personalized motor vehicles reflects rising disposable income; easing of supply side restraints (delicensing of automobile sector leading to the entry of vehicle manufacturers, lifting of Quantitative Restrictions etc.); and availability and easy access to auto finance in the backdrop of rising per capita incomes. In contrast, slower growth in goods vehicle category to some extent also shows changes in structure of economy and shift from commodity producing sector (agriculture and industry) towards services which are far less material intensive together with higher input costs (tyres etc.) and a plethora of regulations hampering free movement of goods vehicles across the country.

Table 3 - Compound Annual Growth Rates (in %) in Vehicles and Road Length												
Period	Vehicles						Roads					
	Two - Wheelers	Cars, Jeeps & Taxis	Buses	Goods Vehicles	Others *	Total	NHs	SHs& PWD	Rural	Urban	Project	Total

- 2. 'Basic Road Statistics of India', 2004-05 to 2007-08.*

The growth of vehicular traffic on roads has been far greater than the growth in road network; as a result the main arterial roads in the country are facing capacity saturation. Between 1991 and 2008 the total vehicle population grew at a CAGR of 9.8 per cent vis-a-vis the CAGR of 3.4 per cent in the total road length. A noteworthy aspect has been the step-up in the growth of National Highway network in recent years which has grown at CAGR of about 4.1 percent.

State -wise Distribution of Vehicle Population

Chart-4 and Chart-5 indicate that Maharashtra accounted for the largest share (14%) of the registered vehicles in the country as on end March 2009 followed by Tamil Nadu (12%), Gujarat (10%) and Uttar Pradesh (10%). These four States together accounted for about 46% of the total vehicles registered upto 31.3.2009. Among all States, Sikkim reported the lowest number of the total registered vehicles.

Source: Calculated on the basis of data received from Offices of State Transport Commissioners.

Source: Calculated on the basis of data received from Offices of State Transport Commissioners.

Growth in terms of CAGR of registered vehicles (as shown Table-4) amongst the States and Union Territories during (2001-2009) shows that total registered vehicle population grew at 9.7%. Dadra & Nagar Haveli accounted for highest growth rate (22%) followed by Tripura (14%) and Tamil Nadu (12%). Several States exceeded the all-India growth rate as shown in Table-4.

Table-4: Compound Annual Growth Rate (CAGR) of Registered Vehicles amongst States and Union Territories during 20001-2009.	
STATE	CAGR
Andhra Pradesh	9.3
Arunachal Pradesh	0.6
Assam	10.8
Bihar	9.5
Goa	8.9
Chhattisgarh	11.9
Gujarat	8.9
Haryana	10.8
Himachal Pradesh	10.8

City- wise Distribution of Vehicle Population

Chart-6 depicts the registered vehicle population in 22 metropolitan cities. Delhi has the highest vehicle population, which exceeds the combined vehicle population reported by Chennai, Kolkata and Mumbai. The top five cities namely Delhi, Bengaluru, Chennai, Hyderabad, and Ahmedabad accounted for 54% of the total vehicles of metro-cities. Kochi reported the lowest number of registered motor vehicles among all metropolitan cities in India.

***: Live vehicles after cancellation of vehicles registered prior to 1.1.1993.**

Source: Calculated on the basis of data received from Offices of State Transport Commissioners.

The 22 cities posted a CAGR of 8.7% in the number of total vehicle registrations during period (2002-2009). These 22 metros accounted for a share of about 27 % of the total number of vehicle registrations in the country upto March 2009. Amongst the metro cities Chennai (11.6%), Coimbatore (12%), Hyderabad (11.6%) and Nagpur (12%) posted growth rates of 11% or more. In contrast, Delhi and Mumbai reported lower CAGRs of 8% and 7% respectively (refer Table-5).

Table-5 : Compound Annual Growth Rate(CAGR) of Registered Vehicles in Metropolitan Cities during 2002-2009	
<u>Metro Cities</u>	<u>CAGR</u>
Ahmedabad	9.4
Bengaluru	8.7
Bhopal	9.2
Chennai	11.6

International Comparison on Vehicular Penetration

Table 6 portrays the vehicular penetration across select developed and developing countries in the world. The Table reflects vehicle fleet ratios in terms of three parameters: (i) passenger cars per 1000 persons; (ii) total vehicle population per 1000 persons; and (iii) two wheelers per 1000 persons in conjunction with the per capita Gross National Income (GNI) in terms of US dollars.

Table-6: Vehicular Penetration in Select Developed & Developing Countries				
Country	GNI per capita 2008 (US \$)	Per 1000 person		
		Passenger Cars	Total Vehicles*	Two Wheelers
Developed				
U.S.A	47930	450.8	834.4	25.5
U.K	46040	462.3	547.4	21.0
Japan	38130	319.5	605.1	11.8
Germany	42710	501.6	597.6	43.4
Australia	40240	550.8	713.7	26.5
France	42000	495.4	641.1	43.5
Developing

(*) : Data relates to 2007, (@) : Data relates to 2009.

Sources:

1. World Road Statistics, 2010, International Road Federation, Geneva.

2. Calculated on the basis of data received from Offices of State Transport Commissioners/UT Admns.

It is apparent from the Table 6 that there is positive association between vehicle ownership and per capita income. Developed countries like Germany and USA have car penetration rates (car/1000 persons) which are higher by factors of about 19 and 17 to that of China and by factors of 46 and 42 to that of India. In case of India and few other developing countries the penetration level of two wheelers (two wheelers / 1000 persons) is much higher compared to developed countries. At lower levels of income it is an affordable and cost effective means of personalized mobility. Table 6 demonstrates that penetration level of the Passenger cars is much higher in developed countries compared to developing countries. The penetration level of the total vehicles is higher in developed countries compared to developing countries except Malaysia.

Motor Vehicle Taxation

The avowed purpose of motor vehicle tax (MVT) is to defray the costs of road maintenance out of revenue realized from user charges. Besides motor vehicle taxation is also geared to facilitate fulfill other objectives like the reduction of both congestion and pollution. However, multiplicity of objectives results in complex tax structures, cross-classifications and unintended economic and welfare effects. Broadly the rationale behind motor vehicle taxation is two-fold. First, levies on the road transport sector can be justified as approximate user charges. MVT in the form of registration charges are essentially a charge on access to road network. In fact, the more a motor vehicle is used, the less the vehicle charge per kilometer travelled. But while access charges may vary according to vehicle type, they do not discriminate according to usage. The current structure of MVT in India is primarily based on ownership and only indirectly linked to consumption (of the road transport service). Hence it is not a perfect user charge. Second, MVT is supported on the ground that it has a fast growing base and an important source of tax revenue for the States.

MVT is being levied in all States and UTs except the UT of Lakshadweep. Existing tax structure for commercial vehicles shows wide variations among States. There are different bases for computation and different rates, leading to differing incidence of taxes per vehicle in different States. In fact, it is not easy to make comparisons of rates levied on different types of vehicles across States. Inter-State comparisons are, therefore, somewhat difficult for the following reasons:

- a) different classification principles for the taxation of vehicles in different States;
- b) variations in the application of 'lifetime' and annual tax rates to vehicle categories;
- c) use of specific and *ad valorem* rates;
- d) multiplicity of rates.

Several criteria have been adopted to differentiate motor vehicles for taxation purposes across the States making comparisons of incidence difficult.

Two Wheelers: Most of the States have switched over to life time tax (LTT) except States like Haryana and a few in the North East (Manipur, Mizoram, and Sikkim, Tripura). Also certain UTs like Andaman & Nicobar Islands, Dadra & Nagar Haveli and Daman & Diu levy annual taxes. In Puducherry, there is a combination of one time tax and annual tax. In some

States, tax slabs for LTT for two-wheelers are based on engine capacity (Daman & Diu, Himachal Pradesh, Nagaland, Puducherry, Rajasthan, Sikkim, Uttar Pradesh, Uttarakhand and West Bengal); in some it is the unladen weight (Assam, Bihar, Dadra & Nagar Haveli, Haryana, Manipur, Orissa,). Other States follow life time tax based on purely the value/cost of the vehicle (Andhra Pradesh, Chhattisgarh, Delhi, Goa, Gujarat, Karnataka, Kerala, Maharashtra, Madhya Pradesh Punjab and Tamilnadu).

Cars: Prior to the introduction of LTT, motor cars and jeeps were differentiated either on unladen weight or on engine capacity basis. The former reflects the fact that weight has an effect on variable road maintenance costs while engine capacity is an imperfect proxy for fuel use. Some of the States/UTs which follow engine capacity are Jammu & Kashmir, Sikkim and West Bengal. On the other hand, Dadra & Nagar Haveli, Daman & Diu and Puducherry follow unladen weight as the basis. In Himachal Pradesh basis of MVT is engine capacity in conjunction with the percentage of cost of vehicle (COV). Some like Chandigarh and Rajasthan follow the basis of seating capacity. However, most of the States now follow life time tax based on the value/cost of the vehicle (Andhra Pradesh, Assam, Bihar, Chhattisgarh, Delhi, Goa, Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Madhya Pradesh, Meghalaya, Rajasthan, Tamilnadu, Uttar Pradesh and Uttarakhand). States like Manipur and Uttar Pradesh levy varying amounts and rates respectively depending on fuel use (petrol and diesel). The system of ‘lifetime taxation’ has now become fairly universal in case of personalized mode (two-wheelers and passenger cars). However, some States like Andaman & Nicobar Islands, Jharkhand, Mizoram and Tripura are among the few States, which still continue with annual taxation. Within one-time tax levying States, for certain States like Arunachal Pradesh (5 years), Meghalaya (10 years) etc validity is for less than 15 years.

Passenger Vehicles: In the case of passenger transport vehicles like stage or contract carriages, for the most States the seating capacity forms the basis for levying tax. Motor vehicle taxation of passenger buses is mainly on the basis of an upper seating capacity limit (per seat per month/ quarter/annum) and treated differently from motor cars and jeeps. Sometimes it is extended to cover authorized standees as well (Kerala and Gujarat). However, in case of certain states , the basis of taxation differs e.g. Arunachal Pradesh levies a one-time tax; Karnataka charges varying rates on Revenue earned by ‘Fleet Owner Buses’ for city services and mofusil services ; Andaman Nicobar Islands levy a flat amount per year ; Andhra Pradesh levies varying rates on Gross Traffic earnings for APSRTC buses differentiating between mofusil services or urban services while for ‘Private’ buses specific amounts are charged on daily kilometerage depending on ‘Ordinary’ or ‘express’ services ;

In many States like Chhattisgarh, Orissa etc, differentiation in tax treatment of passenger buses is also accorded on the basis of type of service (Ordinary/Luxury/Express etc). Some States, for example, Andhra Pradesh, Chhattisgarh, Madhya Pradesh, Orissa, also include the distance that the vehicle is permitted to ply as an additional element for determining the quantum of tax. There is another system also. Routes are divided into different categories in terms of region with a different rate of tax for each. This system is prevalent in Andhra Pradesh, Himachal Pradesh, Karnataka, Nagaland, (based on region- rural, mofusil, Urban, hilly or plain). Another distinction peculiar to the taxation of commercial passenger vehicles is that between stage carriages (with fixed stopping points on specified routes) and contract carriages (including taxis) hired on time or distance basis. Rajasthan levies differing rates of Annual Road Tax on the cost of vehicle on (i) the complete vehicle and (ii) the chassis.

Goods Vehicles: The terms “heavy” and “light commercial” goods vehicles are defined in the Motor Vehicles Act, 1988, essentially on the basis of weight. In general, taxation of passenger vehicles depends on the seating capacity, while goods vehicles are almost always taxed on the basis of the registered laden weight (RLW) – also known as gross vehicle weight (GVW) or unladen weight (ULW) or registered payload (the difference between RLW and ULW). For goods vehicles, in most of the States, the basis for taxation is registered laden weight (RLW)/gross vehicle weight (GVW). As far as tax on goods vehicle is concerned, the de facto tax rate everywhere is a specific rate calculated on the basis of ULW, GVW/RLW or payload. However, in exceptional cases ad valorem rates are charged on the cost of vehicles/sales prices etc. This category of States includes Gujarat and Rajasthan.

Taxes on Transport vehicles plying on inter state routes: Passenger Buses (SRTU or private) plying on inter state routes covered by an inter-state agreement are subject to MVT only in their State (State of registration). However, buses (SRTUs or private) plying on inter state routes not covered by such agreements are subject to MVT in both the States. The inter se tax structure between goods and passenger vehicles indicates that light passenger vehicles (personal and commercial cabs) are lower taxed than light goods vehicles, but rates on medium and heavy vehicles are much higher for passenger than goods vehicles.

ANNEXURES

GLOSSARY OF IMPORTANT TERMS

TERMS	DEFINITIONS
ADMINISTRATIVE STAFF	Includes all the staff working in the Depots and Divisions, other than those in Traffic Staff, Workshop and Maintenance Staff.
AVERAGE CARRYING CAPACITY	The Average carrying capacity is calculated as follows: $\text{AVERAGE CARRYING CAPACITY} = \frac{\text{Total Seating \& Standing for all vehicles on road}}{\text{Total Number of vehicles on road}}$
AVERAGE ROUTE DISTANCE	$\text{AVERAGE ROUTE DISTANCE} = \frac{\text{Total route kilometers of all the routes}}{\text{Total Number of routes}}$
ARTICULATED VEHICLE	Articulated vehicle means a motor vehicle to which a semi trailer is attached.
AXLE WEIGHT	Axle weight means in relating to an axle of a vehicle the total weight transmitted by the several wheels attached to that axle to the surface on which the vehicle rests.
CERTIFICATION OF REGISTRATION	Certificate of registration means the certificate issued by a competent authority to the effect that a motor vehicle has been duly registered in accordance with the provision of Motor Vehicle Act, 1988.
CONDUCTOR	Conductor in relation to a stage carriage, means a person engaged in collecting fares from passengers, regulating their entrance into, or exit from the stage carriage and performing such other functions as may be prescribed.
CONDUCTOR'S LICENCE	Conductor's Licence means the Licence issued by a competent authority authorising the person specified to act as a conductor.
CONTRACT CARRIAGE	Contract carriage means motor vehicle which carries a passenger of passengers for hire or reward and is engaged under a contract, whether expressed or implied, to the use to such vehicle or any person authorized by him in this behalf on fixed or an agreed rate or sum. - On a time basis, whether or not with reference to any route or distance: or - From one point to another, and in either case, without stopping to pick up or set down passengers not included in the contract anywhere during the journey, and includes:- - a maxi-cab; and - a motor-cab notwithstanding that separate fares are charged for its passengers.

DEALER	Dealer includes a person who is engaged :- a) in the manufacture of motor vehicles; or b) in building, bodies for attachment to chassis; or c) in the repair of motor vehicles; or d) in the business of hypothecation, leasing or hire purchase of motor vehicle.
DRIVER	Driver in relation to a motor vehicle is the person who acts as a steersman of the motor vehicle.
DRIVING LICENCE	Driving Licence means the licence issued by a competent authority authorising the person specified therein to drive, otherwise than a learner, a motor vehicle or a motor vehicle of any specified class or description.
EDUCATIONAL INSTITUTION BUS	Educational Institution Bus means an omni bus, which is owned by a college, school or other educational institution and used solely for the purpose of transporting students or staff of the educational institution in connection with any of its activities.
FARES	Fares include sums payable for season ticket or in respect of the hire of a contract carriage.
GOODS	Goods includes Livestock, and anything (other than equipment ordinarily used with the vehicle) carried by a vehicle except living persons, but does not include luggage or personal effects carried in motor car or in a trailer attached to a motor car or the personal luggage of passengers travelling in the vehicle.
GOODS CARRIAGE	Goods carriage means any motor vehicle contracted or adapted for use solely for the carriage of goods, or any motor vehicle not so constructed or adapted when used for the carriage of goods.
GROSS VEHICLE WEIGHT	Gross Vehicle Weight means in respect of any vehicle the total weight of the vehicle and load certified and registered by the registering authority as permissible for that vehicle.
HEAVY GOODS VEHICLE	Heavy Goods Vehicle means any goods carriage the gross-vehicle weight of which, or a tractor or a road-roller the unladen weight of either of which, exceeds 12,000 Kilograms.
HEAVY PASSENGER MOTOR VEHICLE	Heavy Passenger Motor Vehicle means any public service vehicle or private service vehicle or educational institution bus or omnibus the gross vehicle weight of any of which, or a motor car the unladen weight of which, exceed 12,000 kilograms.

INVALID CARRIAGE	Invalid Carriage means a motor vehicle specially designed and constructed and not merely adapted, for the use of a person suffering from some physical defect or disability and used solely by or for such a person.
LEARNER'S LICENCE	Learner's Licence means the Licence issued by a competent authority under Chapter II authorising the person specified therein to drive as a learner, a motor vehicle or a motor vehicle of any specified class or description.
LIGHT MOTOR VEHICLE	Light Motor Vehicle means a transport vehicle or omnibus the gross vehicle weight of either of which or a motor car or tractor or road-roller the unladen weight of any of which, does not exceed 6,000 Kilograms.
MAXI CAB	Maxi cab means any motor vehicle constructed or adapted to carry more than six passengers, but not more than twelve passengers excluding the driver, for hire or reward.
MEDIUM GOODS VEHICLE	Medium goods vehicle means any goods carriage other than a Light Motor Vehicle or a Heavy Goods Vehicle.
MEDIUM PASSENGER MOTOR VEHICLE	Medium Passenger Motor Vehicle means any public service vehicle or private service vehicle, or educational institutional bus other than a motor cycle, invalid carriage, Light Motor Vehicle or Heavy Passenger Motor Vehicle.
MOTOR CAB	Motor Cab means any motor vehicle constructed or adapted to carry not more than six passengers excluding the driver for hire or reward.
MOTOR CAR	Motor Car means any motor vehicle other than transport vehicle, omnibus, road roller, tractor, motorcycle or invalid carriage.
MOTOR CYCLE	Motor Cycle means a two-wheeled motor vehicle, inclusive of any detachable side-car having an extra wheel, attached to the motor vehicle.
MOTOR VEHICLE	Motor Vehicle means any mechanically propelled vehicle adapted for use upon road whether the power of propulsion is transmitted there to from an external or internal source and includes a chassis to which a body has not been attached and a trailer; but does not include a vehicle running upon fixed rails or a vehicle of a special type adapted for use only in a factory (or in any other enclosed premises) or a vehicle having less than four wheels fitted with engine capacity of not exceeding thirty five cubic centimetres.
OMNIBUS	Omnibus means any motor vehicle constructed or adapted to carry more than six persons excluding the driver.

OWNER	Owner means a person in whose name a motor vehicle stands registered, and where such person is a minor, the guardian of such minor, and in relation to a motor vehicle which is the subject of a hire-purchase, agreement, or an agreement of lease or an agreement of hypothecation the persons in possession of the vehicle under that agreement.
PERMIT	Permit means a permit issued by a state or regional transport authority or an authority prescribed in this behalf authorising the use of a motor vehicle as a transport vehicle.
PRIVATE SERVICE VEHICLE	Private service vehicle means a motor vehicle constructed or adapted to carry more than six persons excluding the driver and ordinarily used by or on behalf of the owner of such vehicle for the purpose of carrying persons for, or in connection with, his trade or business otherwise than for hire or reward but does not include a motor vehicle used for public purpose.
PUBLIC PLACE	Public place means a road, street, way or other place, whether a thoroughfare or not, to which the public have a right of access, and includes any place or stand at which passengers are picked up or set down by a stage carriage.
PUBLIC SERVICE VEHICLE	Public Service Vehicle means any motor vehicle used or adapted to be used for the carriage of passengers for hire or reward, and includes a maxi-cab, a motor cab, contract carriage, and stage carriage.
REGISTERED AXLE WEIGHT	Registered Axle Weight means in respect of the axle of any vehicle, the axle weight certified and registered by the registering authority as permissible for that axle.
ROUTE	Route means a line of travel which specifies the highway which may be traversed by a motor vehicle between one terminus and another.
SEMI-TRAILER	Semi-trailer means a trailer drawn by a motor vehicle and so constructed that a part of it is super-imposed on, a part of its weight is borne by, the drawing vehicle.
STAGE-CARRIAGE	Stage carriage means a motor vehicle constructed or adapted to carry more than six passengers excluding the driver for hire or reward at separate fares paid by or for individual passengers, either for the whole journey or for stages of the journey.

STATE TRANSPORT UNDERTAKING	State Transport Undertaking means any undertaking providing road transport service, where such undertaking is carried on by :- i) the Central Government or a State Government; ii) any Road Transport Corporation established under section 3 of the Road Transport Corporation Act, 1950. iii) Any municipality or any corporation or company owned or controlled by the Central Government or one or more State Governments, or by the Central Government and one or more State Government.
TOURIST VEHICLE	Tourist vehicle means a contract carriage constructed or adapted and equipped and maintained in accordance with such specification as may be prescribed in this behalf;
TRACTOR	Tractor means a motor vehicle which is not itself constructed-to carry any load (other than equipment used for the purpose of propulsion) but excludes a road roller.
TRAFFIC SIGNS	Traffic signs include all signals, warning sign posts, direction posts, marking on the road or other devices for the information, guidance or direction of drivers of motor vehicles.
TRAILER	Trailer means any vehicle, other than a semi trailer, and a side car, drawn or intended to be drawn by a motor vehicle.
